SUMMARY

Self-taught web developer with hands-on experience in full-stack development, server management, and game development. Skilled in PHP, JavaScript, Laravel, React, and C#. Currently studying Rekayasa Perangkat Lunak (RPL) at SMK Negeri 6 Jakarta with achievements in national-level competitions. Passionate about building scalable web solutions and growing within collaborative team environments.

WORK EXPERIENCE

Freelance Web & Server Developer   **2019 - Present**
- Designed and developed websites for individuals, organizations, and small businesses.
- Set up and managed servers, including game servers and web hosting.
- Sold domain names and offered end-to-end hosting services.
- Delivered tailored digital solutions with a focus on efficiency, reliability, and client satisfaction.

Zulkifli Law & Zulkifli Nasdem   **2022 - 2023**
- Developed and managed the official website for Zulkifli, focusing on public profiles and informational content.
- Handled website maintenance, content updates, and performance optimization.
- Ensured website security, uptime, and responsiveness to support the organization's public image.

Full Stack Developer & Content Creator – SkyUniverse Tech (Independent Team)   **2023 - 2024**
- Worked as part of a small development team to build a digital sales platform for in-game currency (diamonds), mobile credit (pulsa), and other digital products.
- Designed and implemented e-commerce functionalities and automated transaction systems.
- Actively created content on YouTube to promote the platform and provide tech-related tutorials.

EDUCATION

SMK Negeri 6 Jakarta   **2024 - 2026**
Rekayasa Perangkat Lunak (RPL)
- Focused on game development with Unity & Godot, .NET desktop applications, and full-stack web development using Laravel and React.
- Built self-hosted server projects and personal development tools.
